## WORK EXPERIENCE

**Software Developer (Contract) at Taiwan Mobile** Mar 2026 - Present  
Taiwan, Remote

- Developed a CLI-based database migration tool for bidirectional **PostgreSQL-to-MSSQL** migrations using **.NET**.
- Contributed to the rewrite of a core web application from a legacy **Java** full-stack architecture to a modern stack using **React.js**, **TypeScript**, **Tailwind CSS**, and **Spring Boot**.
- Developed an internal operations web application using **Vue.js** and **Spring Boot**.
- Leveraged AI-assisted development tools, including **GitHub Copilot** and **Claude Code**, to accelerate implementation, prototyping, and debugging workflows.

**Frontend Developer (Freelance) at FIFGROUP by Astra** Jan 2026 - Feb 2026  
Indonesia, Remote

- Built FIFGROUP's marketing questionnaire frontend using **React.js**, **TypeScript**, **Next.js**, and **Tailwind CSS**.

**Full-stack Developer (Freelance) at Darter.ai** Jun 2025 - Dec 2025  
United States, Remote

- Collaborated with multinational team members.
- Developed features for the driver app using **React Native**.
- Developed features for the transportation management system web using **Angular**, **TypeScript**, and **Tailwind CSS**.
- Developed features on multiple **RESTful API** services using **PHP**, **Node.js**, and **Go**.
- Migrated most APIs from PHP (ORM-based) to Go with raw **SQL** queries, improving performance and maintainability.

**Full-stack Developer (Contract) at bythen.ai** Mar 2025 - May 2025  
Indonesia, Remote

- Developed a prototype website using **TypeScript**, **Node.js (NestJS)**, and **MySQL**, which the project manager used to decide whether to implement the feature for the product.
- Integrated **OpenAI** and **Grok** APIs to build an LLM playground for creating product-tailored **RAG** workflows.

**Frontend Developer at eFishery** Jul 2022 - Feb 2025  
Indonesia, Remote

- Developed an internal dashboard for managing harvest data and logistics using **React.js** and **TypeScript**, helping internal users reduce manual spreadsheet-based workflows.
- Initiated unit tests using **React Testing Library** with **Vitest** and maintained code coverage of around 85%.
- Maintained high code quality by managing code smells using **SonarQube**, keeping them consistently low.
- Conducted timely code reviews to ensure fast feedback and maintain code quality.

**Full-stack Developer (Contract) at Celerates** Apr 2022 - Jun 2022  
Indonesia, Remote

- Developed internal management web applications using **TypeScript**, **Next.js**, **Tailwind CSS**, **Node.js (Hono)**, and **PostgreSQL**.
- Designed and documented **RESTful APIs** and database **ERDs** in **RFC** documents to streamline implementation.
- Set up CI/CD with **GitHub Actions** for frontend and backend projects.
- Managed deployments for applications using **Docker** and **Caddy** on a VPS.

## SKILLS

**Languages:** Bahasa Indonesia (Native), English (Intermediate)  
**Programming Languages:** JavaScript, TypeScript, Go, SQL, Swift, Python, Java  
**Frameworks and Tools:** React.js, Next.js, Node.js, Vue.js, Tailwind CSS, TanStack Query, Zustand, Hono, Vitest, React Testing Library, SwiftUI, MySQL, PostgreSQL, Git

## EDUCATION

**Associate's Degree in Application Software Engineering** Aug 2019 - Sep 2022  
Telkom University
